CONTENTS

No. 1 APRIL, 1933

R. R. Humphrey. The occurrence of supernumerary limbs in Amblystoma following operations for removal or implantation of gonadic preprimordia 1

Sam I. Stein. Experimental studies on the hypophysis cerebri. II. The effect of castration in the male albino rat. Two figures 15

Frederic Wood Jones. On weight-bearing bony prominences 31

J. M. Wolfe and Rucker Cleveland. Pregnancy changes in the anterior hypophysis of the albino rat. Two figures 33

Clay B. Freudenberger. Variability in body length, body weight, and organ weights of the rat 47

O. Larsell. The development of the scapula following intra-uterine fore limb amputation in the rat. Four figures 57

American Association of Anatomists. Forty-ninth session: Proceedings, Officers, and List of Members 69

No. 2 MAY, 1933

Sheldon C. Reed. An embryological study of harelip in mice. Seven figures 101

Ernest Van Campenhout. The innervation of the digestive tract in the 6-day chick embryo. Four figures 111

Gustav Zechel. Observations on the follicular cycle and on the presence of the 'macrothyrocyte' in the human thyroid. Seven figures 119

José F. Nonidez. The 'parenchymatous' cells of Baber, the 'protoplasmareichen Zellen' of Huerthle, and the 'parafollicular' cells of the mammalian thyroid. One plate (five figures) 131

Alden B. Dawson. Vital and supravital staining of erythrocytes 143

A. Brazier Howell. The architecture of the pectoral appendage of the codfish. Five figures 151

Henry J. Fry and C. W. Robertson. Studies of the mitotic figure. II. Squalus: The behavior of central bodies in brain cells of embryos. Twenty-seven figures... 159

I. Gersh and Edward J. Stieglitz. A critical study of histochemical methods for the determination of iodides in tissues 185

E. L. Corey. The maceration and resorption of fetuses in the rat. Six text figures and one plate (four figures) 195

No. 3 JUNE, 1933

M. C. Shelesnyak. The production of deciduomata in spayed immature rats after oestrin and progestin treatment. One figure 211

K. Tamaki. The effect of unilateral section of the peroneal nerve of the albino rat on the number of myelinated fibers in the intact nerve of the opposite side 219

K. Tamaki. On the sectional areas and volumes of the largest motor cells and their nuclei in the lumbar cord of the albino rat—according to sex 229

Warren O. Nelson. Studies on the anterior hypophysis. III. The anterior hypophysis in vitamine E-deficient rats 241

Alden B. Dawson. Intranuclear crystalloids in the superficial epidermal cells of the catfish, Ameiurus nebulosus. One plate (ten figures) 255

Cecil K. Drinker, George B. Wislocki, and Madeleine E. Field. The structure of the sinuses in the lymph nodes. Three plates (ten figures) 261

H. H. Cole, G. H. Hart, W. R. Lyons, and H. R. Catchpole. The development and hormonal content of fetal horse gonads. One text figure and two plates (fourteen figures) 275

J. Arthur Reyniers. Studies in micrurgical technique. V. A moist chamber for tissue culture and cellular dissection. Three figures 295

J. Arthur Reyniers. Studies in micrurgical technique. VI. A micro suction and injection apparatus. Two figures 307

No. 4 JULY, 1933

L. B. Arey and M. J. Tremaine. The muscle content of the lower oesophagus of man. 315

Roland K. Meyer and Willard M. Allen. The production of mucified cells in the vaginal epithelium of certain rodents by oestrin and by corpus luteum extracts. Three plates (fourteen figures) 321

E. V. Enzmann. Milk-production curve of albino mice. Six figures 345

O. A. Mortensen and W. E. Sullivan. The cerebrospinal fluid and the cervical lymph nodes. One plate (two figures) 359

George Milton Smith. The mechanism of intake and outflow of fluids in the lateral line canal of fishes. One plate (three figures) 365

M. F. Guyer and P. E. Claus. Cellular constituents of the anterior hypophysis after uterine implants of carcinoma in rats. Two text figures and one plate (seven figures) 373

Barry J. Anson and J. Gordon Wilson. The fissula ante fenestram in an adult human ear. Four plates (thirteen figures) 383

George M. Higgins and Charles Sheard. The effect of dicalcium phosphate, without vitamin D, in the nutrition of chicks. Six figures 395
